vision rafa canvas

features & benefits

Rafa Canvas is a 100% polyester media with a canvas appearance and feel - as opposed to the smoothness of vinyl - which doesn't crack when folded and gives a soft tactile finish.

Rafa Canvas Prints give the look and feel of wallpaper without the join lines to spoil the finished wall design. Another advantage is that fewer joins mean less chance of damage to the edges, resulting in a product that stays looking good for longer. Printing an entire wall covering in one piece also eliminates colour issues which can happen when tiled wallpaper is used. Rafa Canvas Prints are particularly suited to curved wall spaces.

specifications

The print area can be as high as 3.12m by whatever width is required.

PRODUCT CHARACTERISTICS

description	measure	value
fabric base cloth //	DIN60001	100% PES
production width //	DIN EN ISO 2286-1	3100mm
fabric weight //	DIN EN ISO 2286-2	230+/- 15 g/m2
fabric thickness //	DIN EN ISO 2286-3	0.38mm+/- 0.03mm
tensile strength warp/weft //	DIN 53857 T1	≥64/40 da N/5cm
tear resistance warp/weft //	DIN 53857 T2	≥15/18 N
whiteness //	ASTM313-98	≥95
ligh fastness //	DIN EN ISO 105-B02	≥6
water pressure test //	DIN 53886	>300mm
air permeability //	DIN 53887	<1,4 l/dm2
flame retardancy //	Country Specific	French: M1 German: B1 US: NFPA 701 ONORM T1/Q1
ink production options //	N/A	Solvent, UV, Latex
environment usage //	N/A	Indoor and Outdoor
